

Augusta Regional Landfill Disposal Guide

Material	Disposal Method
Air Conditioners	See Appliances or Scrap Metal
Aluminum Cans	Aluminum cans can be recycled in the yellow recycle boxes at the Public Use Site.
Antifreeze	Antifreeze can be poured into the used antifreeze tank under the wooden shelter at the Public Use Site at the Landfill. There is no charge for residents.
Appliances	Appliances can be dropped off at the scrap metal storage area at the Public Use Site at the Landfill. There is no charge for residents. Refrigerators, air conditioners, and dehumidifiers shall be placed in the designated areas so landfill employees can safely remove the refrigerants.
Asbestos	The Augusta Regional Landfill is not permitted to accept friable or non-friable asbestos. If you need further information, please call the landfill at 337-2857.
Ashes	Ashes should be cool to the touch and must be taken directly to the active fill no later than 3:30 PM.
Batteries	All types of batteries may be recycled under the wooden shelter at the Public Use Site.
Brake Fluid	Augusta County hosts a Household Hazardous Waste (HHW) collection event each fall. The waste must be generated in a residence (NOT FROM A BUSINESS). All Staunton, Waynesboro, and County residents may participate. Click here for planned events.
Brush	See Yard Waste below.
Bulky Waste	Couches and mattresses may be disposed of in the bulky item open top containers at the Public Use Site.
Car Batteries (Lead-Acid)	All types of batteries may be recycled under the wooden shelter at the Public Use Site at the landfill.
Cardboard	Cardboard can be recycled in the yellow recycle boxes at the Public Use Site or in the last open top container at the public use site at the landfill.
Cell Phones & Smart Phones	All cell phones and smart phones may be dropped off at the battery recycling area under the wooden shelter at the Public Use Site at the landfill.
Computers & Electronics	All computers and electronics may be disposed of in the green open top containers at the Public Use Site at the landfill.
Construction Materials	All construction materials may be disposed of in the green open top containers at the Public Use Site at the landfill.
Cooking Oil	Cooking oil should be solidified with kitty litter or dirt and placed in the regular trash.
Dead Animals	Dead animals may be disposed of in the active landfill during normal operating hours from 8 AM until 2 PM. No dead animals will be accepted after 2:00 PM. Follow the purple signs for the active fill area.
Dehumidifiers	See Appliances or Scrap Metal
Fluorescent Tubes	Residents may dispose of limited quantities of fluorescent tubes generated from their household in the bulky item open top containers at the Public Use Site. Businesses must dispose of their fluorescent tubes in accordance with EPA Regulations. The preferred method for residential disposal is through the Household Hazardous Waste (HHW) collection event each fall. Planned events.

Augusta Regional Landfill Disposal Guide

Material	Disposal Method
Furniture	All furniture may be disposed of in the green open top containers at the Public Use Site at the landfill.
Gasoline	Augusta County hosts a Household Hazardous Waste (HHW) collection event each fall. The waste must be generated in a residence (NOT FROM A BUSINESS). All Staunton, Waynesboro, and County residents may participate. Click here for planned events.
Glass Containers	Glass (Food / Beverage) containers can be recycled in the yellow recycling boxes at the Public Use Site at the landfill.
Hydraulic Oil, Lamp Oil, Diesel Fuel	Hydraulic oil, lamp oil, and diesel fuel may be poured into the used oil containers under the wooden shelter at the Public Use Site at the landfill.
Kerosene	Kerosene may be poured into the used oil containers under the wooden shelter at the Public Use Site at the landfill.
Latex Paint	Latex paint should be solidified with kitty litter or dirt and placed in the regular trash.

Paint	See Latex Paint, Oil based paint, or Stains.
Pesticides	Augusta County hosts a Household Hazardous Waste (HHW) collection event each fall. The waste must be generated in a residence (NOT FROM A BUSINESS). All Staunton, Waynesboro, and County residents may participate. Click here for planned events.
Phone Books	Old phone books may be recycled in the yellow recycling boxes (as mixed paper) at the Public Use Site at the landfill.
Plastic	The Augusta Regional Landfill no longer recycles plastic. Residents bringing plastic should dispose of it in the open tops or the compactor box at the public use site.

Augusta Regional Landfill Disposal Guide

Material	Disposal Method
Prescription Drugs & Other Medications	The Augusta County Sheriff's Office accepts pills at their office in Verona. No liquids or sharps / syringes may be dropped off. Medications may also be disposed of through a national drug take back program that is sponsored by various organizations. For additional options, link DisposeMyMeds.org
Propane Tanks	Remove the valve from the propane cylinder and place the empty propane tank in the scrap metal pile.
Refridgerators	See Appliances or Scrap Metal
Scrap Metal	All scrap metal (stoves, grills, bikes, hot water heaters, washing machines, and driers) can be dropped off at the scrap metal storage area at the Public Use Site at the Landfill. There is no charge for residents. Refridgerators, air conditioners, and dehumidifiers shall be placed in the designated areas so landfill employees can safely remove the refridgerants.
Stains	Augusta County hosts a Household Hazardous Waste (HHW) collection event each fall. The waste must be generated in a residence (NOT FROM A BUSINESS). All Staunton, Waynesboro, and County residents may participate. Click here for planned events.
Steel / Tin Cans	Steel / tin (Food / Beverages) cans can be recycled in the yellow recycle boxes at the Public Use Site at the landfill.
Stumps	The Augusta Regional Landfill does accept stumps. The scale clerks will direct customers to the storage location. Large stumps do not go into the yard waste pile.
Syringes or Sharps	Household generated syringes or sharps should be placed in a rigid plastic container, labeled Sharps, sealed, and placed in the garbage. A link is attached. http://www.deq.virginia.gov/Portals/0/DEQ/Land/Guidance/Household_Sharps_Flyer.pdf Commercially generated needles must be disposed of in accordance with the Virginia Regulated Medical Waste Regulations.
Televisions	Televisions may be disposed of in the bulky item roll off containers at the Public Use Site at the landfill.
Tires	All tires are subject to a Tipping Fee. Tires should be placed in the designated open top trailer at the Public Use Site at the landfill. For tire tipping fees, click here.
Transmission Fluid	Transmission fluid can be poured into the used motor oil containers under the wooden shelter at the Public Use Site at the landfill.
Yard Waste	All brush, grass clippings, and wood goes into the yard waste pile. Follow the green arrows at the landfill. Please do not put any type of lumber (building materials) in the pile. The material is ground and recycled on-site. The landfill does not provide mulch to citizens.
