Design and Construction Standards

General

Augusta Water shall establish, and revise as necessary, general water and sewer construction specifications to govern the design and construction of water and sewer facilities, and materials used therein, for construction of water and sewer systems in Augusta County.

Any developer or owner who proposes to submit application to Augusta Water for review and approval of plans and specifications for construction of facilities intended for acceptance by Augusta Water shall be provided (upon request), prior to submitting his application, with one (1) set of the Design and Construction Standards. Augusta Water shall be obligated to furnish this one (1) set at no cost on a bona-fide request.

Additional sets of the Design and Construction Standards may be supplied, at the cost indicated in the current Fee Schedule, by Augusta Water to any recipient qualified to receive the one free set.

The current Design and Construction Standards will also be provided, at no cost, online at www.augustawater.com/standards.
